#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

1. This communication is in response to amendment filed 4/14/05.

**Response to Amendment**

2. Claims 1-16 are currently pending as presented in the amendment.

**Election/Restrictions**

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:

In the instant case, the claimed the application is directed to the following distinct inventions as explained below.

Invention I: (claims 1-6, 11,12 and 15) is directed to a method for configuring a bid adjustment mechanism in an online auction which comprises setting a single bid adjustment value such as amount of bid to be adjusted by an absolute value or a percentage of some reference value.

Invention II: claims 7-10 is directed to a method for configuring a bid adjustment mechanism in an online auction which comprises setting bid adjustment values for at least two bid parameters such as bid price and associated quantity.

4. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as adjusting bid according a bid adjustment value set in the configuration interface and

Art Unit: 3624

invention II has separate utility such as adjusting at least two parameters associated with a bid according to their respective values set in the configuration interface. See MPEP § 806.05(d).

5. Because these inventions are distinct for the reasons given above and different search strategy is required for each invention for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

6. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

**7 . SPECIES**

This application contains claims directed to the following patentably distinct species of the claimed invention. In the event that the applicant elects the indicated invention, election to one of the indicated species is further required.

Invention I. (claims 1, 2, 11 and 15 are generic)

Species I-A: selecting a bid adjustment type associated with the bid adjustment value wherein the bid adjustment type corresponds to an absolute value or a percentage of a previous bidder (claims 3-5, 12).

Species I-B: bid adjustment value corresponds to a bid rank (claim 6).

Invention II. (Claims 7, 13 and 16 are generic)

Species II-A: selecting for each of at least two bid parameters, a bid adjustment type associated with the bid adjustment value set for the respective one bid parameter (claims 8).

Species II-B: at least two bid parameters include price and quantity (claims 9 and 14).

Species II-C: at least two bid parameters include discount rate and contract length (claim 10).

8. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1, 2, 11 and 15 are generic to species of invention I and claims 7, 13 and 16 are generic to species of invention II.

9. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

10. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

11. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record

Art Unit: 3624

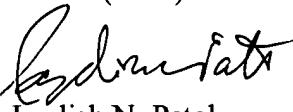

showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
